

ETT

Verpackungstechnik

TRADE-SPECIFIC SOLUTIONS

PHARMACEUTICAL AND HEALTHCARE PRODUCTS

YOUR BENEFITS

- ≡ Vast range of machines
- ≡ GMP-compliant design
- ≡ Durable construction
- ≡ Fast return-on-investment
- ≡ Customised concepts

TRADE-SPECIFIC SOLUTIONS - END-OF-LINE PHARMAPRODUCTS

DEPALLETISATION

Depalletisation of glass bottles or moulded plastic bottles

Layer-by-layer depalletisation to optimise your distribution handling and packing processes. Universal layer depalletising tools for reliable handling of products made of glass, plastic, etc.

Your benefits

- Powerful depalletisation
- Reliable destacking
- Automated processes

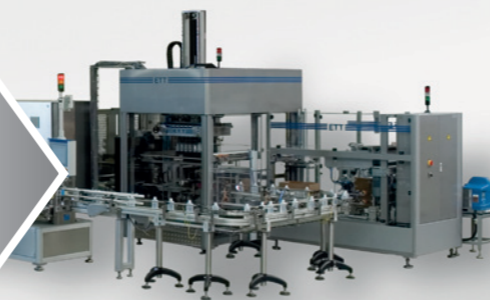

PRODUCT

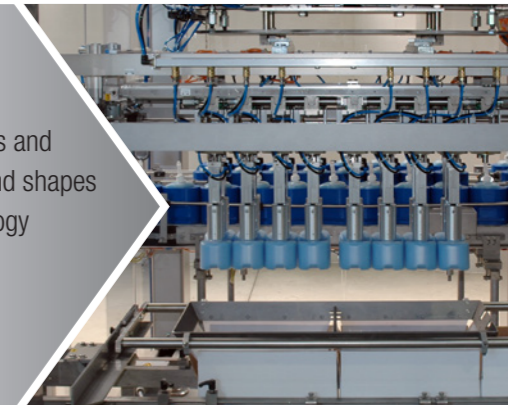

Product packing

ETT's end-of-line packing systems increase productivity in intralogistics. These compact lines offer perfectly matched interaction between individual packing modules – even in confined spaces.

Your benefits

- Optimal concepts for products and packaging of various types and shapes
- Flexible gripper head technology
- Quick changeovers

CLEAN ROOM

Loading and unloading of products in a clean room

ETT's systems enable pharmaceutical companies to optimise their production processes even in sensitive surroundings such as clean rooms.

Your benefits

- Compliance with usual GMP standards
- Stainless steel construction
- Easy to clean for optimal hygiene

AUTOCLAVES

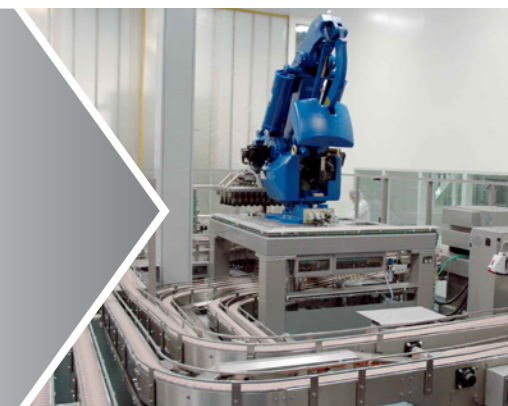

Loading and unloading of autoclaves

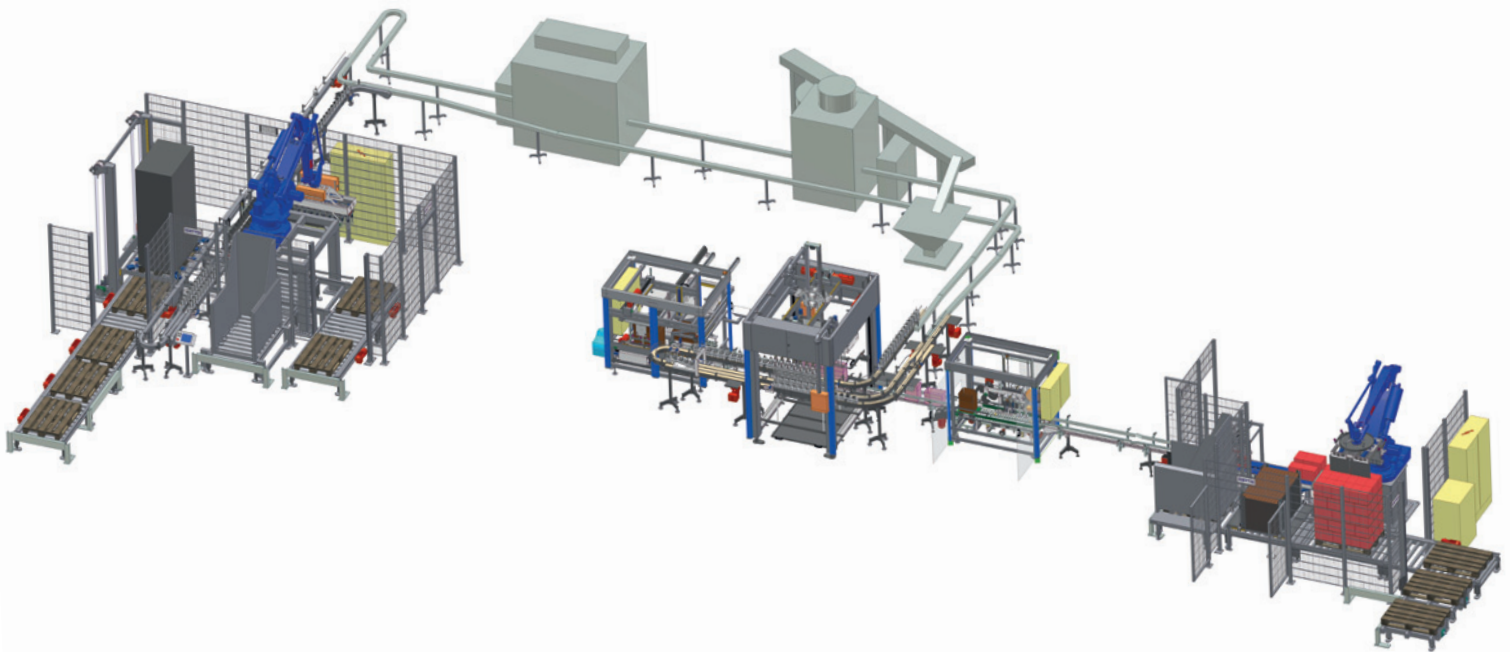

At the touch of a button state-of-the-art industrial robots load infusion bags, bottles or vials into autoclave racks before the sterilisation process and unload them again afterwards –all this while complying with the strict standards of the pharmaceutical industry.

Your benefits

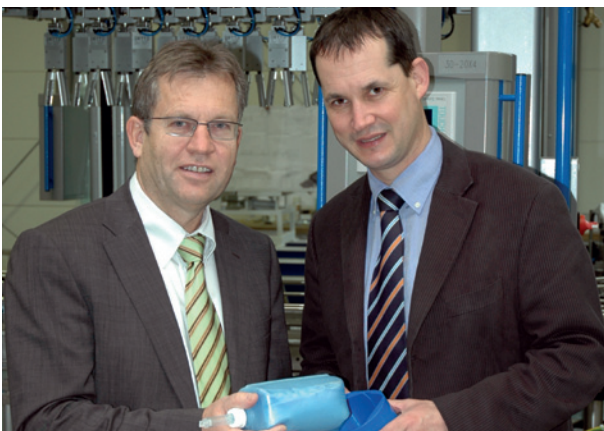

- Powerful
- Fully automatic
- Gentle handling of products

PACKING SYSTEMS FOR MANY DIFFERENT INDUSTRIES

- ≡ Pharmaceuticals/Healthcare
- ≡ Food
- ≡ Homecare
- ≡ Body care
- ≡ Aerosols
- ≡ Chemicals
- ≡ Oils and lubricants
- ≡ Automotive
- ≡ Stationery/Electronics/Photo

"Many pharmaceutical companies rationalise and outsource services – our end-of-line packing systems for the pharmaceutical and healthcare industries allow you to increase your efficiency to react faster to new requirements of the market."

Martin Dirks, Thomas Wedemeyer
Managing Directors of ETT Verpackungstechnik GmbH

ETT-SYSTEM MODULES AND TURN-KEY LINES

- ≡ Turn-key systems
- ≡ Packers/robotic concepts
- ≡ Wraparound systems
- ≡ Monoblock-Packanlagen
- ≡ Case and tray erectors
- ≡ Bag packers
- ≡ Picker cells
- ≡ Depalletisation/palletisation
- ≡ Special purpose machines
- ≡ Product control modules
